

When You First Get Your EasyPass

- Register your Card at clippercard.com to protect your Card's added value (cash and other agency fares or passes).
- You can manage your Clipper Card account from your phone with the Clipper app; however, your plastic EasyPass Card will be deactivated if you decide to convert your Clipper EasyPass to the mobile phone app's contactless payment system.
- Tag your Card on the bus so it will be ready when you are; tag at least once within the first six months to keep your Card active.
- Save your Card number in case you lose your Card.
- Keep your Card long-term. Your EasyPass will be active as long as you qualify.
- Keep your Card safe and secure. It's only for you.
- Qualified Residential EasyPass holders can purchase Additional Unit Passes from their Site Coordinator or property managers.
- For more info, refer to your EasyPass User Guide, contact your EasyPass Site Coordinator, or visit actransit.org/easypass.
